

Instructions:
This image is for an average sized face. Cut out image. Using the point of scissors, or other pointed, sharp instrument, poke a hole on either side of the face where there are small circles. To hold to head: Elastic string (available at craft and sewing stores) works best, but you can also use string or even rubber bands looped together. Tie or otherwise fasten to holes on either side of face and loop around your head to hold in place.

Costume ideas: To complete your costume wear a samurai outfit. Wear hair messy and sticking out. Carry a sword.
